

LAND & RESOURCE GOVERNANCE AT USAID

Resource Quick Guide | World Bank Land Conference | May 13-17, 2024

LAND TENURE MATTERS!

USAID is leading the way forward in improving land and resource governance and strengthening property rights around the world. We are testing and learning from innovative and cost-effective methods to improve secure land tenure and property rights, analyzing and disseminating evidence, engaging with the private sector, civil society, and other donors, and applying lessons learned.
